Personal Statement

Current Senior Software Engineer with good understanding in BA, IA, AA, SA, UX and UI. 4 Years background as a Digital Developer/Team Leader in Web Design and Development. Broad knowledge of HTML5, CSS3, JavaScript, jQuery, PHP, MySQL and Responsive Design.

Education

BSc (Honours) in Computer Science   **[2006 - 2010]**
Brunel University

BTEC in Software Development   **[2004 - 2006]**
UxbridgeCollege

Work History

Senior Software Enginner   **[2015 - Present]**
IRIS Software Group Ltd

As a Senior Software Engineer and the Lead UX/UI Designer for IRIS, I am an integral part of the Cloud Division, working in an Agile environment to create stunning interfaces for IRIS's innovative software systems, working across all stages of the Design Lifecycle. I have ownership of estasblishing and maintaining Design Guidelines, best practices and coding standards. I regularly push the capabilities of the software systems and drive innovation across their native application suite.

Digital Developer / Team Leader   **[2014 - 2015]**
April-Six

Mid-Level Digital Developer   **[2013 - 2014]**
April-Six

Junior Digital Developer   **[2012 - 2013]**
April-Six

As a Senior Digital Developer I was promoted to Team Leader acting as a conduit between senior management and members of the team, responsibilties included but not limited to , developing and maintaining Email Direct Marketing Campaigns, Websites, Animated Infographics, troubleshooting, Data Analysis and Testing. Achievements included working with and designing for companies such as Microsoft, McAfee, VMware and Cisco
